

DIPLOMA IN METALLURGICAL ENGINEERING

DURATION
(REGULAR) 1 YEAR
(FAST TRACK) 3 MONTHS

ELIGIBILITY
12TH PASS

WORK EXPERIENCE
2 YEARS

COURSE DESCRIPTION

Diploma in Metallurgical engineering is a specialized program that focuses on the study of the principles and practices of metallurgical management. The course provides a comprehensive understanding of the various aspects of metallurgical management, including extractive metallurgy, materials science, process optimization, and quality control. Students also gain hands-on experience through practical sessions, laboratory experiments, and fieldwork to develop their skills in metallurgical management. Upon completion of the course, graduates can pursue a career in various industries, including mining, metals production, and manufacturing. Graduates can also pursue higher studies in metallurgical management and related fields.

ABOUT US

In order to integrate the personnel strategy with the employer's business, we are devoted to providing qualified, talented, and professional manpower solutions to all sectors. We also provide a variety of training options to our applicants since we think it is important to support their professional development and excellence. With a large pool of applicants ranging from recent graduates to senior jobs, Job Scan can locate, screen, assess, and select prospects who meet the requirements of the hiring manager. Using our high standards for behaviors, and we respect the contributions of each customer and applicant we work with.

SUBJECTS

- **ESSENTIALS OF MANAGEMENT**
- **PHYSICAL METALLURGICAL**
- **METALLIC MATERIALS**
- **MATERIAL SCIENCE AND STEEL**
- **METERIAL SCIENCE OF NON-FERROUS METALS**

EXAM & DURATION

ONLINE EXAM: 2HRS/PAPER

TOTAL FEES: RS.25,500*

INTERNATIONAL FEES: \$ 400*
