

DIPLOMA IN LABOUR LAW

COURSE DESCRIPTION

Based on Wikipedia, "The interaction between employees, employers, unions, and the government is mediated by labour legislation. The two fundamental terms are Individual labour law and Collective labour law. The tripartite connection between the union, the employer, and the employee is addressed by collective labour legislation. Individual labour law is concerned with workers' rights at work, including through the employment contract." Several colleges around the nation offer a certificate or diploma course in labour law. The one-year programme seeks to provide students who have completed their 10+2 from a standard board with the option to pursue law and develop a career as an attorney. The practise of law involves working with the nation's legal framework. Labour law provides a greater comprehension of its contract law and employment law students. They can speak for both the employee's perspective and that of the company. The programmer has extensive understanding of trade unions, labour legislation, and Indian law. They should also be highly interested in and knowledgeable about how the judicial system in our nation operates.
