COURSE DESCRIPTION

Students who complete the course will be able to work in a relevant sector. Graduates can apply for roles such as budget analyst, finance manager, bookkeeper, chief information officer, mutual funds broker, business consultant, system designer, manager, and many more. Graduates often earn between 30,000 and 6 lakh Indian rupees per year. Wipro, Polaris, Cognizant, HP, Capgemini, L&T Infotech, Indusland Bank, and many other companies use graduates from this course. The computer application course in the master's programme has several objectives. Its primary purpose is to spread information widely so that students can fully appreciate it and its applicability in various aspects of the business world.

Additional goals for a master's programme in computer applications include: The primary purpose is to give students with a pathway to pursue professional studies. Second, to convey to commerce students all recent and upcoming developments in the various disciplines of trade. Third, to motivate students to apply the knowledge they have gained throughout the course to better society as a whole. Fourth, students should receive as much education as possible in order to find decent positions in business, industry, and other relevant industries. The Master of Commerce in Computer Applications programme allows candidates to specialise in areas such as development and design.
