3 YEARS

## COURSE DESCRIPTION

Diploma in Dairy Technology is a specialized program that focuses on the study of the principles and practices of dairy technology. The course provides a comprehensive understanding of the various aspects of dairy technology, including milk processing, quality control, packaging, and distribution. Students also gain hands-on experience through practical sessions, laboratory experiments, and fieldwork to develop their skills in dairy technology. Upon completion of the course, graduates can pursue a career in various industries, including dairy production, food processing, and packaging. Graduates can also pursue higher studies in dairy technology and related fields.
