1 YEARS**

COURSE DESCRIPTION

The Advanced Diploma in Fire and Safety Management is a two-year program that provides students with a comprehensive understanding of the principles and practices of fire and safety management. The course includes advanced topics such as fire safety engineering, industrial safety management, and risk assessment. Students also gain hands-on experience through practical sessions, laboratory experiments, and fieldwork to develop their skills in fire and safety management. Upon completion of the course, graduates can pursue a career in various industries, including firefighting, safety auditing, and emergency management. Graduates can also pursue higher studies in fire and safety management and related fields.

ABOUT US
