

GRADUATE PROGRAM IN REFRIDGERATION AND AIR CONDITIONING

DURATION – **(REGULAR) 3 YEARS**
(FAST TRACK) 1 YEAR

ELIGIBILITY :
12TH/BPP

WORK
EXPERIENCE :
3 YEARS

COURSE DESCRIPTION

This program teaches students about the design, installation, and maintenance of refrigeration and air conditioning systems. Students will learn about thermodynamics, heat transfer, and refrigerant properties. They will also learn about the latest technologies in this field, including energy-efficient systems and smart controls. Graduates will be able to design, install, and maintain refrigeration and air conditioning systems for residential, commercial, and industrial applications.

SUBJECTS

YEAR 1

- Essentials of Management
- Basics of Refrigeration
- Basics of Air Conditioning
- Engineering Materials
- Heat Transfer

YEAR 2

- Industrial Management
- Total Quality Management
- Basic Electrical and Electronics
- Safety at Workplace
- Cold Storage Technician

YEAR 3

- Field Engineer
- Non-conventional Refrigerating System
- Automobile Air Conditioning
- Electrical Engineering
- Refrigeration and Air-conditioning Materials

ABOUT US

In order to integrate the personnel strategy with the employer's business, we are devoted to providing qualified, talented, and professional manpower solutions to all sectors. We also provide a variety of training options to our applicants since we think it is important to support their professional development and excellence. With a large pool of applicants ranging from recent graduates to senior jobs, Job Scan can locate, screen, assess, and select prospects who meet the requirements of the hiring manager. Using our high standards for behaviors, and we respect the contributions of each customer and applicant we work with.
